

New Global Tablet PC Coverage

Get the latest, comprehensive view of the tablet PC market. *Tablet Quarterly* tracks changes in tablet PC products and strategies and forecasts the impact of those changes on the market. This new report provides the latest data and analysis on processors, technology trends, operating systems, HDMI, cellular connectivity, panels and more. With this report, clients can

- Get up-to-date global market intelligence on what is needed to be a player in the market
- Understand who is building for which brands with a design win database
- Make planning adjustments by knowing which operating systems are expected to win
- Stay informed on embedded features and technologies including HDMI, memory card readers, Wi-Fi, cellular, USB, webcams, and processors
- Make product planning adjustments with both finished goods demand and supply chain information
