

PDP Technology Report

A market and technology assessment of PDP technology.

This market assessment covers the evolution of plasma technology, manufacturing methods and production challenges. Each panel manufacturer's production status is revealed and their technologies are evaluated. Market share and forecasts are also provided.

Analysts

[Yoonsung Chung](#)

Korea

Director, Large-Area Displays & FPD Materials

A recognized expert in PDP technology, he has spoken at many FPD forums.

Detailed Information

Data Covered

- PDP supplier profiles
- Historical and future technology trends
- Analysis of PDP discharging mechanism, driving schemes and process flow
- Breakdown of each PDP material
- Examination of PDP cost-related technology and trends

Key Questions Answered

- When will be the next technology breakthrough and what will it be?
- Where will plasma costs and prices go, and where are margins headed?
- What technologies are enabling cost reductions?
- How will PDP overcome technology hurdles, and will it survive?

Subscription Package

Frequency: *One time*

Format: 

Outline

- History of Plasma Display
- Overview of Plasma Displays
- PDP Materials and Costs
- PDP Process Overview
- Current Technology of PDP
- Future PDP Technology
- Company Profiles including Hitachi (FHP), Pioneer, Panasonic, LG Electronics and Samsung SDI
- PDP Market Outlook
