

Quarterly LED Supply/Demand Market Forecast Report

Quarterly LED industry research

This report analyzes supply and demand on a quarterly basis for the entire LED industry. From chip prices to LED maker roadmaps, clients get a clear outlook and reliable forecast of LED supply/demand, along with an analysis of the impacts on pricing. Forecasts in this report include detailed backlight and lighting supply/demand, pricing cost structure, prices and more. Use this report to:

- Support product planning and procurement decisions by having a comprehensive, reliable view of the LED industry
- Understand where the market is headed in terms of supply/demand, prices, and costs
- Identify opportunities in lighting and backlight technologies
- Understand regional supply chain activity and competitive positioning
- Track and plan for over-supply and under-supply situations
- Track both backlight and lighting supply chain changes

Analysts

[Steven Sher](#)

Taiwan
Analyst

Has in-depth knowledge of LED chip, package, application field and backlights and lighting.

Detailed Information

Data Covered

- Rolling 16 quarter forecasts for LED backlights by size, resolution and application
- Rolling 16 quarter forecasts for LED lighting by power, light input, and installation
- LED supply chain analysis for backlights and lighting
- Global MOCVD technology and investment update
- LED supply/demand forecasts and analysis
- LED package, backlight, and lighting price and cost structure forecast
- LED technology update
- LED makers roadmap update

Key Questions Answered

- What will future LED demand look like?
- What are the upcoming main applications for LED?
- What is the LED competition doing?
- What are latest price structure forecasts?
