

The Emitter: Emerging Display Technologies

Make better decisions around emerging technologies.

This monthly report provides you with extensive coverage and analysis of emerging technologies that are impacting the world of displays. Gain insight into the latest on OLED lighting and displays, 3D, e-paper, pocket projectors, MEMS displays, touch screens and more. Use this report to:

- Understand the significance of new innovations
- stay a step ahead of the competition
- Learn about new product announcements and material updates
- Gain a concise summary of target application news

Analysts

[Jennifer Colegrove](#)

United States

Vice President, Emerging Display Technologies

Focused on display technologies, including flexible, OLED and e-paper displays.

Detailed Information

Data Covered

- Updates on technology and producers
- Overviews of recently-presented technical papers
- New products using OLED and emerging technologies in displays
- Exclusive insights on display-related technological advancements
- The latest innovations presented at conferences around the globe
- Recent product announcements and material updates
- Innovative manufacturing news
- Competitive technology reports
- Emerging technology shipment and revenue reports
- A concise summary and update of impacts on target applications

Key Questions Answered

- What are the hottest new applications in displays?
- How will emerging technologies impact the marketplace?
- Which innovations are for real, and which will fizzle out?
- What brands are best prepared to take up-and-coming technologies to market?
- What is the latest news on OLED technology?
